Veritas Aim

Our Aim is composed of 3 Objectives:

1. Firstly deliver the best possible service for our student
2. Ensure the service is available and accessible for anyone no matter their background
3. Lastly upholding a bespoke teaching environment tailored for students requirements

Our Humble Beginnings

2019

In the final year of sixth form, we started to tutor and mentor Year 12's both for their subjects and to support their university applications. This consisted of helping with admission tests, interviews, personal statement and their overall application to ensure they are presenting themselves in the best way possible

2020

As the year progressed into a new decade, the awareness of our services grew in our sixth form with more students seeking our support. This allowed us to juggle large requests from students and also our own A levels with this. We started to propose ideas of tutoring our services into a business and be able to provide learning to a large range of students, enabling them to achieve their potential.

During this time, the outbreak of Covid-19 occurred, we got more free time in our hands, and after a few days of procrastination & dozens of philosophical zoom calls to question our existence in the grand scheme, we finally got the discipline to expand our services. After a couple of days of brainstorming together, we came up with Veritas Learners - bringing true education. Eventually, by the end of summer 2020, our website was launched and we left into the professional world

Login page

A hand-drawn sketch of a login page on lined paper. At the top, it says "Are you a" followed by two tabs: "Student" and "Tutor". Below this is a large rectangular box containing the text "Log in" at the top. Inside the box, there are two input fields: one labeled "Email" and another labeled "Password". Below the "Password" field is a button labeled "Login". At the bottom of the box, there is a link that says "Forgot Password?".
