# MENU-GOODSINSURED + HEALTHSINSURED:

1. NEED TO MAKE MENU close on click......

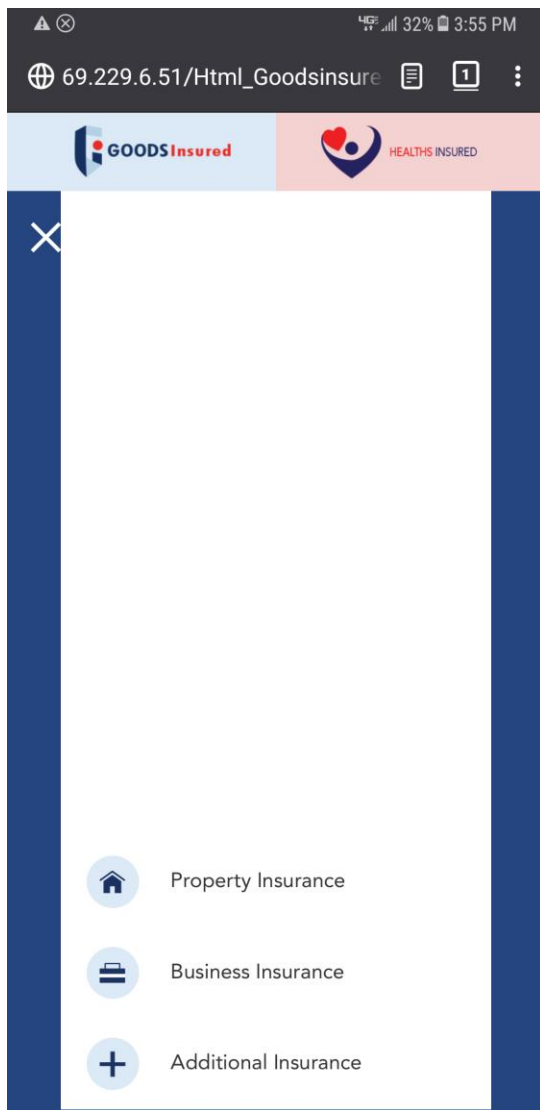

THIS IS NOT working. In any of the devices….

BUGS#1:

ANDROID:

When you open a menu and close by doing click on INSURANCE this bugs occurs:

FOR some reason it is doing this when you have a SUBMENU and it is close only occurs 25-35% of the time.
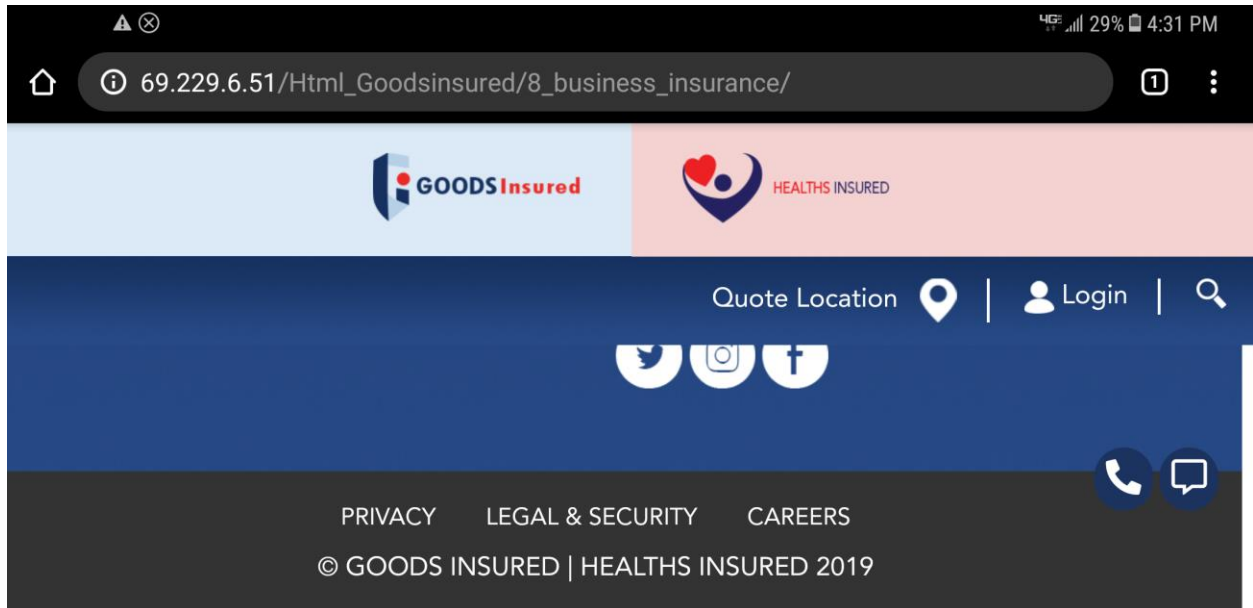

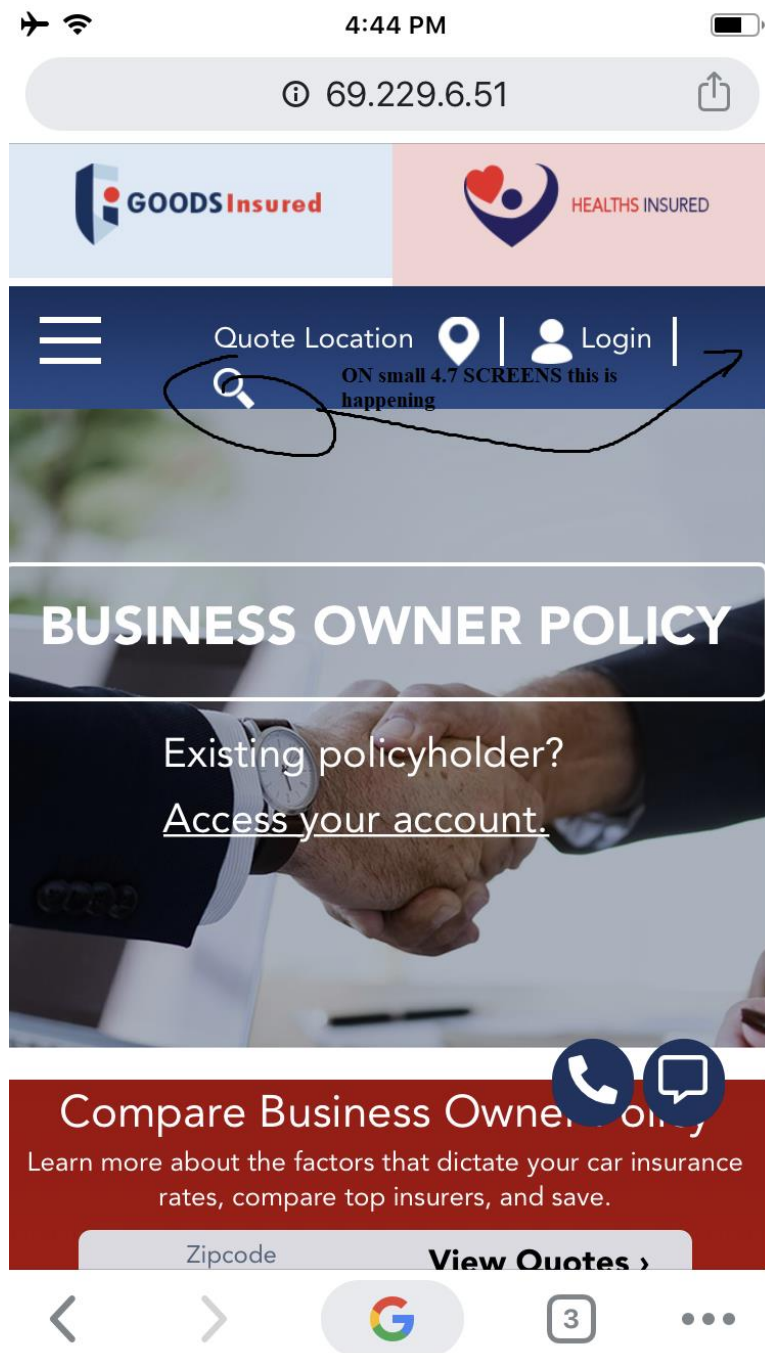

BUGS#2:

When you scroll down TO look at other options in ANDROID this is happening. THE MENU disappears all together and 25-30% of the time it gets stuck on this and INSURANCE (Button 1) stops working. Only occurs on FIREFOX Android.

BUGS#3:

ON android SIDE VIEW….. MENU button disappears….

BUGS#4: IOS iphone 4.7 inch screen. 4.7 screen are having lots of issues also with scrolling. IF the menu is scroll to go to see a MENU OPTION and requires scroll. Menu starts disappearing, start having Bug # 1, 2 OR MENU options stops functioning. Scrolling here is the issue.

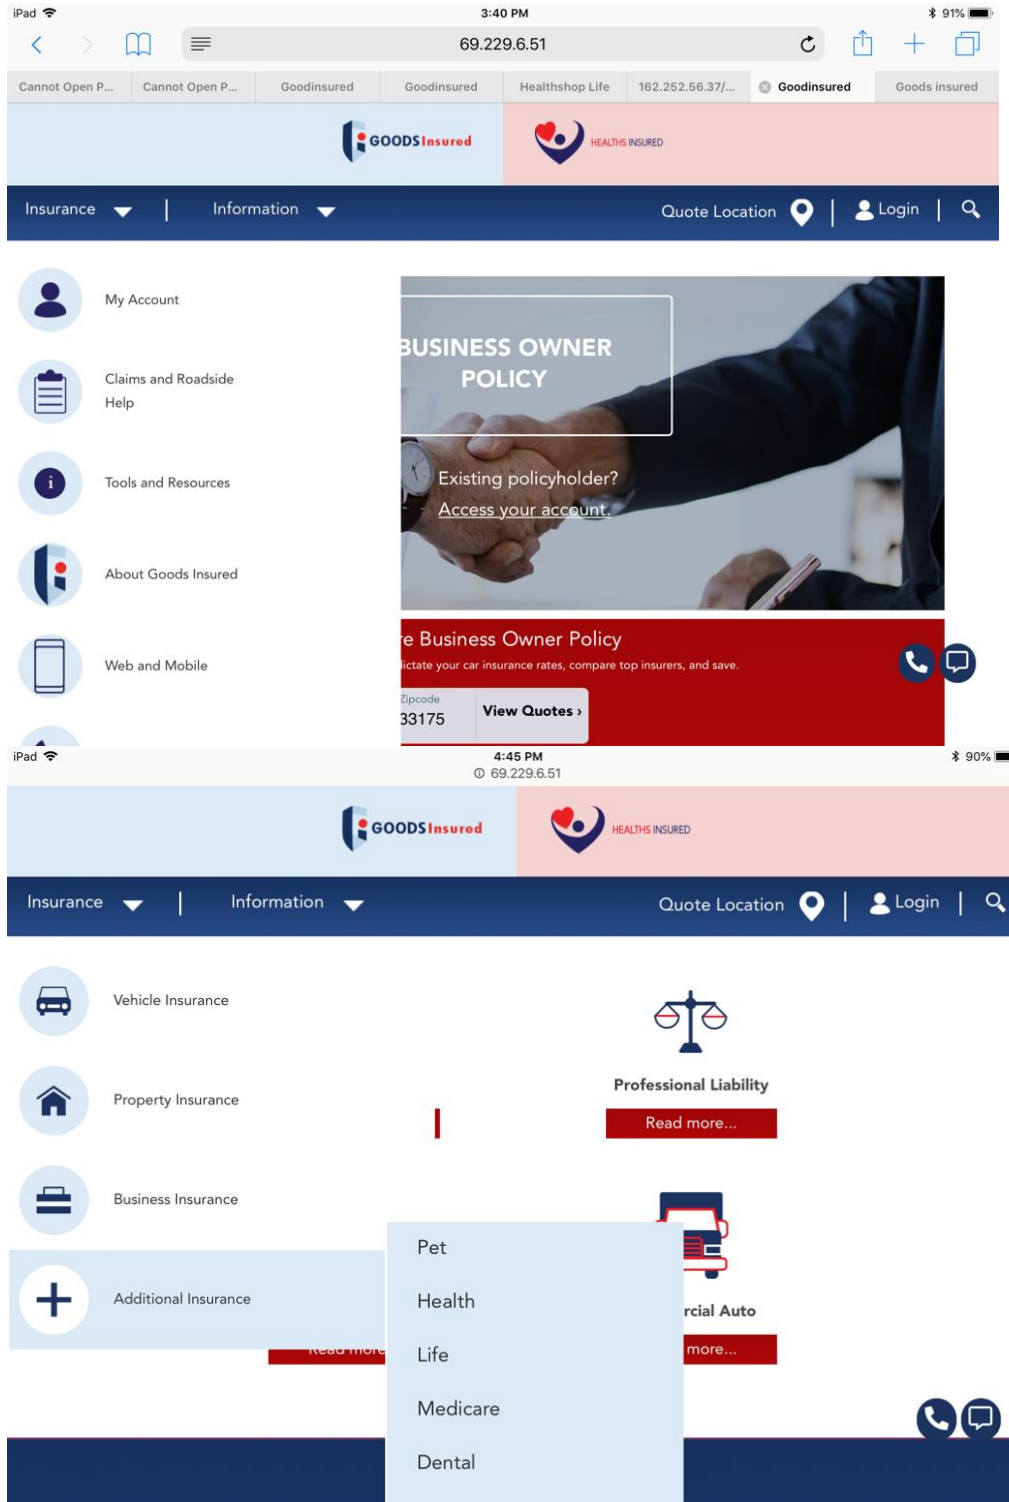

On smaller 4.7 inch screen THE search bar is still having this issue. SEARCH icon is being move to a SECONDARY column
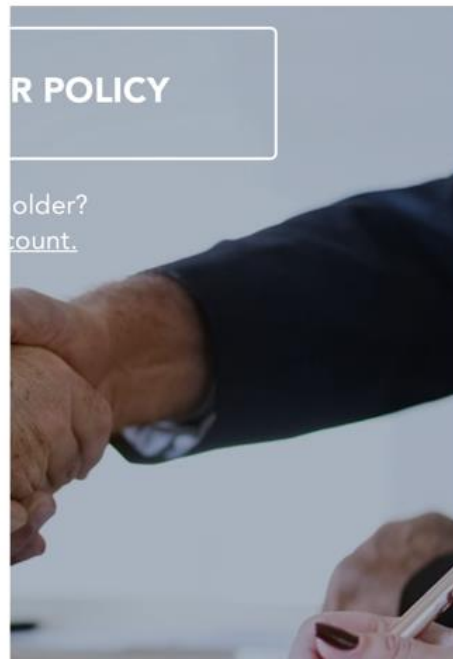

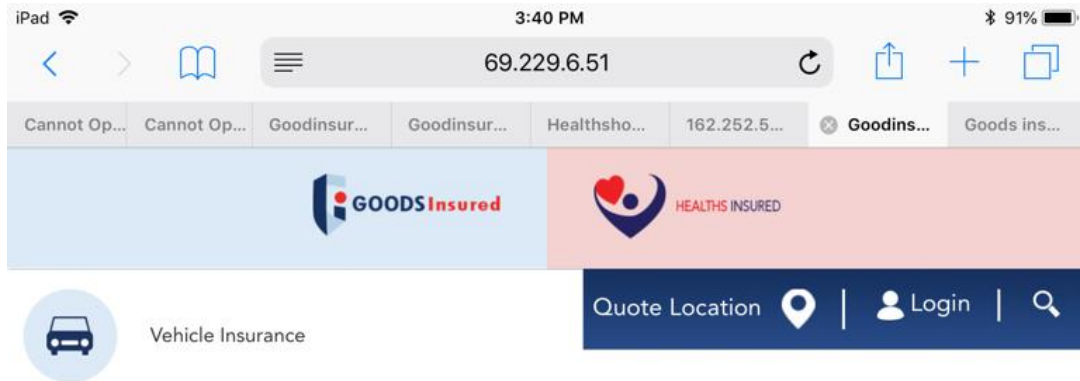

BUGS#5:

IOS TABLET.

Menu gets cut off and there is no scroll in it. This I HORIZONTAL VIEW. BOTH instances MENU gets cut

BUGS#6:

MENU is full of bugs on VERICAL VIEW on tablet. This is what the user sees

Menu has spacing of the secondary options. MENU does not scroll and the MENU covers the HAMBURGER button of the BLUE bar.
